

USER MANUAL 2024

Wi-Fi² NestBox Inspection Camera

ABOUT:-

Wi-Fi² NestBox Camera connects to most android & iOS devices allowing you to view and record live video and capture quality photos directly from the tree tops.

Operates pretty much anywhere; **Mobile Service is NOT required**. You can even use it with your old device with no SIM card. In fact we recommend this option.

Features

- Great quality pictures & video with date time imprint
- Wi-Fi to android & IOS devices - no internet required
- Rotating camera Lens – suitable for Hollows - Nest & Bat boxes
- Up to 6 hours run time from a single charge
- Video & photo download direct to your device - via the app
- Includes Smart battery with protective nylon pouch & cable ties
- Charge using your 2 amp micro USB phone charger
- Includes eco-friendly storage case
- 12 months Warranty

Install the app before powering up the Wi-Fi² Camera

IOS

ANDROID

starweb.com.au

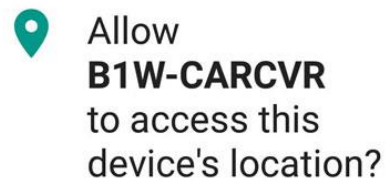

1. Android installation (IOS may vary) - follow Screen prompts

Select ALLOW on both screens

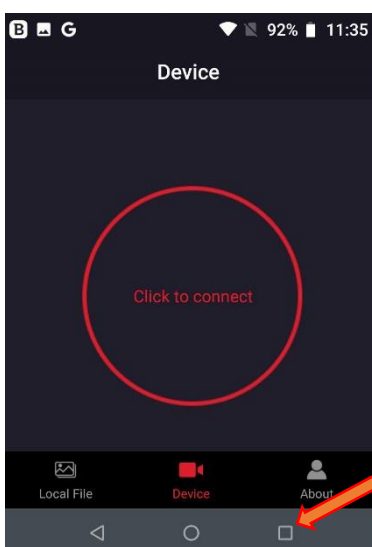

1 of 2

DENY **ALLOW**

2 of 2

DENY **ALLOW**

When installation is completed the '**Device**' screen will open.

Click here & CLOSE THE APP

THEN - RESTART YOUR MOBILE DEVICE

You can install the app on multiple devices, however the Wi-Fi² NestCam can only connect to one device at a time.

Using the Camera for the first time:

On your device **SETTINGS**: Turn **Mobile Data OFF & Disable any VPN**

1. Initialising the app to connect to the Wi-Fi² NestCam

This only has to be done once.

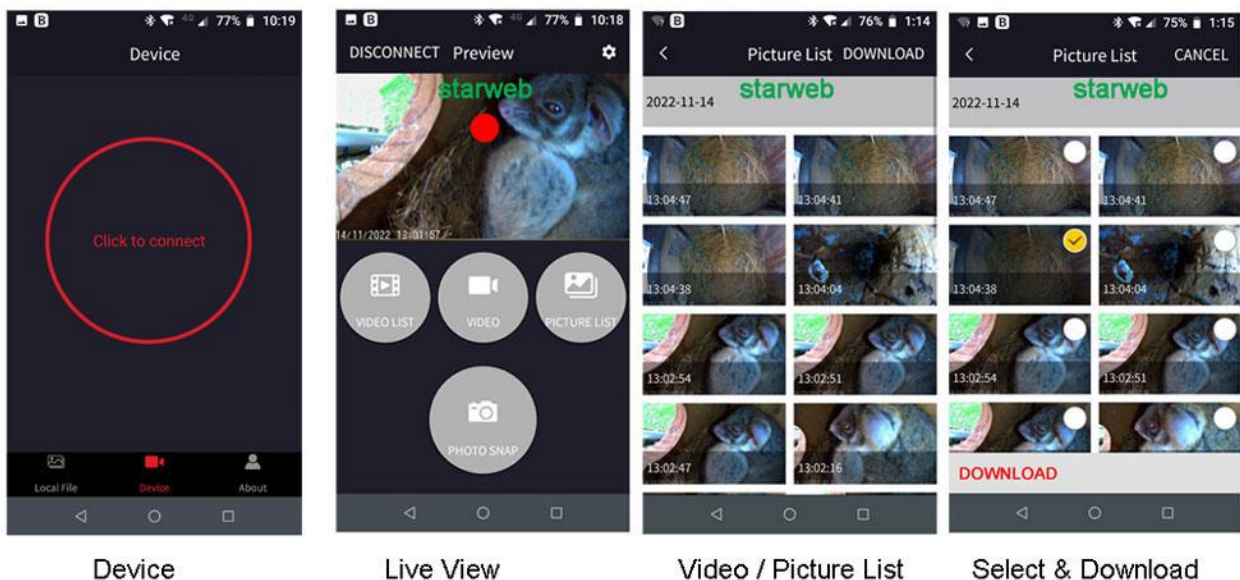

- Plug Camera's power cable into the USB socket on the top of the Smart Battery. Press power button on the side of the Smart Battery, the camera's illuminator will come be ON confirming that the Camera is receiving power.
- **WAIT 30 seconds for the camera to fully boot up**
- On your device go to **SETTINGS** – turn **ON Wi-Fi**
- Select '**B1W_.....**' network & enter the password **1234567890**
- Message "**B1W_.....Connected, no Internet**" is displayed

2. On your device - open the App

The **DEVICE** screen will open, tap on "**Click to connect**"

The Live View **PREVIEW** screen will open

Camera automatically starts recording at power up. On the **Live View** screen the red record icon will be flashing, press the **VIDEO** button to **STOP** recording. Press it again to **START** recording. To capture a photo press the **PHOTO SNAP** button.

Downloading Photos & Videos from the Camera

Videos are saved in **Video List** folder & Photos are saved in the **Picture List** folder, these folders are located on the camera's internal memory.

To view a folder's contents, press either the **Video list or Picture list** button. Scroll through files, select a file by ticking its white button then click on the **DOWNLOAD** option at the bottom of the screen. **Only one file can be downloaded at a time.** On IOS devices they will be downloaded to the 'photos' folder and for android devices to the 'gallery' folder. These can be accessed by clicking on the **Local File** icon, lower left on the **Device Screen**.

Tips & Advice:

- Secure protective Battery Pouch to your pole using the cable ties
- To avoid possible OVERHEATING Do NOT exceed 20 minutes of continuous running. Unplug camera from Smart Battery when not in use
- Turn Camera **OFF** when travelling between nest sites
- Do NOT change the Wi-Fi network Password. If you forget your new password the camera will be rendered totally useless.
- **"Failed to get device information"** message - turn Off mobile data in your phone settings then reconnect to the camera's **B1W_.....** Wi-Fi network (enter the password 1234567890 if asked) *as outlined on page 3.*
- Charge the **Smart Battery** with a 2amp/ hour micro USB phone charger

The **Wi-Fi NestBox Inspection Camera** is compatible with many IOS & Android devices but not all. If you experience problems try using a different device or use an older device, a SIM card is NOT required. Problems may arise if your device undergoes a firmware update. You may have to re install the app *as outlined on page 3 or try a different device.*

We make no guarantee that this product is compatible with all available devices. Your camera has been tested on a Samsung phone - Lenovo tablet & iPad just prior to it posted to ensure that it is functioning properly.
