Wi-Fi² NestBox Inspection Camera

New for 2023 *Wi-Fi² NestBox Inspection Camera*

Wi-Fi² NestBox Camera allows you to view and record live video and capture quality photos directly from the tree tops. Connects wirelessly to most android & iOS devices.

Operates pretty much anywhere; **Mobile Service is NOT required.** You can even use it with your old device with no SIM card. In fact we recommend this.

Features

- Superior quality pictures & video with date time imprint
- Wi-Fi to android & IOS devices - no internet required
- 12 months Warranty
- Up to 8 hours run time from a single charge
- Suits Nest & Bat boxes - camera rotates thru 360°
- Video & photo download direct to your device - via the app
- Edit camera settings - via the app
- Includes Smart battery with nylon pouch
- Includes carry case

Install the app before powering up the Wi-Fi² Camera

**IOS**   **ANDROID**

starweb.com.au

1.   Android installation (IOS may vary) - follow Screen 1 & 2 prompts

Select ALLOW on both screens

Allow
B1W-CARCVR to
access photos,
media and files on
your device?

1 of 2   DENY   ALLOW

Allow
B1W-CARCVR
to access this
device's location?

2 of 2   DENY   ALLOW

When installation is completed the '**Device**' screen will open.

Click here & CLOSE THE APP

THEN - RESTART YOUR MOBILE DEVICE

You can install the app on multiple devices, however the Wi-Fi² NestCam can only connect to one device at a time.

Using the Camera for the first time:

On your device SETTINGS: Turn **Mobile Data OFF & Disable any VPN**

1. Initialising the app to connect to the Wi-Fi^2 NestCam
This only has to be done once.

- Plug Camera's power cable into the USB socket on the top of the Smart Battery. Camera should power up, white led illuminator will be visible. If not, Press the power button located on the Smart Battery, the illuminator should come ON.
- **WAIT 30 seconds for the camera to fully boot up**
- On your device go to **SETTINGS** – turn **ON Wi-Fi**
- Select '**B1W_34200…..**' network & enter the password **1234567890**
- "**B1W_34200…..Connected, no Internet**" is displayed

2. On your device - open the App

The **DEVICE** screen will open, tap on "**Click to connect'**
The Live View **PREVIEW** screen will open

Device   Live View   Video / Picture List   Select & Download
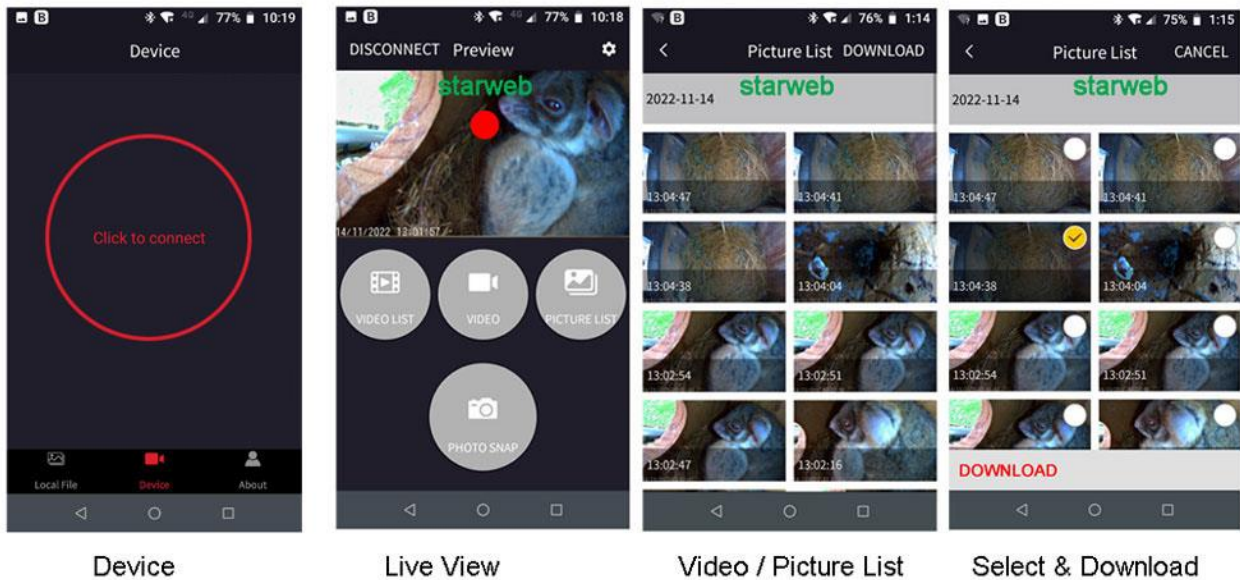

Camera automatically starts recording at power up. On the *Live View* screen the red record icon will be flashing, press the *VIDEO* button to **STOP** recording. Press it again to **START** recording. To capture a photo press the *PHOTO SNAP* button.

Download Photos or Video

Data is saved on the camera's internal memory. Videos are stored in *Video List* folder & Photos are stored in the *Picture List* folder.

On the *Live View* screen click on the preferred list button. The *Video/ Picture list* screen will open. Scroll through files, select the file by ticking its white button then click on the **DOWNLOAD** option at the bottom of the screen. Only one file can be downloaded at a time. On IOS devices they will be downloaded to the 'photos' folder and for android devices to the 'gallery' folder. These can be accessed by clicking on the *Local File* icon, lower left on the **Device Screen**.

Tips & Advice:

- Do NOT run the camera continuously for more than 15 minutes at a time as damage from overheating may result.
- To conserve battery power & avoid the camera overheating we recommend it be turned **OFF** when travelling between nest boxes.
- Do NOT change the Wi-Fi network Password. If you forget your new password the camera will be rendered totally useless.
- *"Failed to get device information"* message - turn **Off** mobile data in your device settings then reconnect to the camera's **B1W_34200…..**' Wi-Fi network (enter the password 1234567890 if asked) *as outlined on page 3*.

The *Wi-Fi NestBox Inspection Camera* is compatible with many IOS & Android devices but not all. If you experience problems try using a different device or use an older device, a SIM card is NOT required. Problems may arise if your device undergoes a firmware update. You may have to re install the app *as outlined on page 3 or* try a different device. **We make no guarantee that this product is compatible with all available devices.**
